>> The MV Narrative offers a lifestyle that spans continents.

>> Dining at its finest.

>> Residents of the MV Narrative will enjoy versatile spaces combining gourmet dining and luxurious swimming areas.

>> The natural light and contemporary design come together in this luminous living space.

>> Beauty in every detail.

>> A leather-upholstered living room offers the perfect setting to unwind and relax after a day of globetrotting.

THE SEA CALLS YOU HOME

HEMINGWAY ONCE SAID, "The sea is the same as it has been since before men ever went on it in boats." But, dear Hemingway, we doubt you ever imagined life on the ocean quite like this.

Storylines' MV Narrative was born from a dream—or perhaps a restless desire—shared by founders Alister Punton and Shannon Lee, two explorers with a taste for the good life. They envisioned a world where adventure-seekers could roam the globe without leaving the comforts of home behind. The idea formed to create a luxurious ship that offered a first-of-its-kind residential community experience.

MV Narrative is set to sail in 2027 and will journey to six continents, circumnavigating the globe every three years. Residents enjoy multiple days in most ports, offering ample time for deep exploration. One day you might be ambling through Lisbon's historic streets, another feasting on Bangkok's Michelin-starred street food. And if you feel the ship should linger a little longer in the Seychelles? Simply cast your vote. Storylines encourages a democratic itinerary as well as participation in philanthropic activities to balance out all of the indulgences.

The MV Narrative has two main goals for its guests: adventure and living well. It includes 530 fully furnished residences ranging from \$1 million to \$8 million for the lifetime of the vessel. Owners will enjoy a complete all-inclusive experience with cultural enrichment programming, and wellness and fitness facilities available 24 hours a day. With twenty different dining venues, a craft microbrewery, an art studio, a bowling alley, and three pools, the ship offers the kind of amenities that would make Robinson Crusoe wish he'd gotten shipwrecked here instead. Shared ownership options are also available, making this oceanic lifestyle accessible to more aspiring adventurers. Families and friends are always welcome, and when you're not using your residence, it can be rented out—creating the perfect blend of personal use and investment.

Wellness is at the core of life aboard the MV Narrative, with services ranging from weight loss programs to anti-aging treatments, all focused on enhancing your well-being. You can start your mornings running on the outdoor track, practice yoga in the dedicated studio, or play a round of virtual golf on the simulators. There's even a pet exercise area.

The dedicated medical clinic on board includes a doctor, nurse, pharmacist, nutritionist, and physiotherapist, ensuring your health is always prioritized. You can unwind in the meditation room or take time for yourself in one of the relaxation pods. The ship even has its own hospital for emergency care, with a helicopter pad for evacuations—offering peace of mind while at sea. Another detail that offers some peace of mind is that the MV Narrative will be one of the greenest passenger vessels afloat, using liquid natural gas (LNG) propulsion—the most environmentally friendly option currently available for large ships. The ship will include a zero-waste farmer's market, where every product is compostable or recyclable, and residents can enjoy fresh produce grown in the solar-powered hydroponic garden on board.

MV Narrative offers a unique and inspiring proposition: an opportunity to see the world, live in luxury, and be part of a community that values both wellness and sustainability. Got kids? There's even a world-traveling school aboard for young learners, making the ship not just a home but a dynamic environment where children can grow and learn in an ever-changing setting. With Storylines, you have a chance to live a life that feels plucked from the pages of a great seafaring novel—one with all the excitement, plenty of luxury, and none of the mutiny. —Molly Headley
